The Habitat International Coalition (HIC) is the global network for rights related to habitat. Through solidarity, networking and support for social movements and organizations, HIC struggles for **social justice**, **gender equality**, and **environmental sustainability**, and works in the defence, promotion and realization of **human rights related to habitat, housing and land** in both rural and urban areas.

HIC is made up of more than 350 member organisations around the world and coordination offices in Mexico City, Cairo, New Delhi and Barcelona that work together to strengthen links between organisations and collectives, accompanying and supporting community processes and the most disadvantaged groups so that everybody has a safe place to live in peace and with dignity both in the countryside and in the city.
